PAINT TETROMINOES

BY RODOLFO KURCHAN

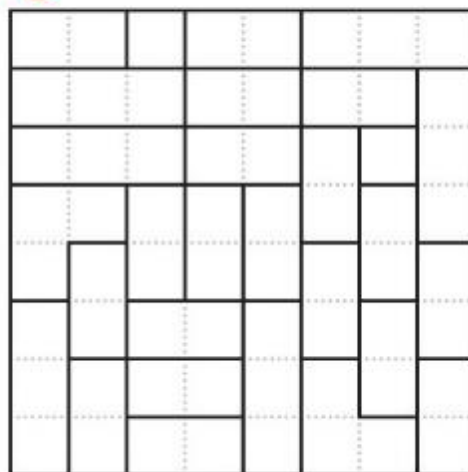

In each puzzle, shade some regions of the grid so that the five different tetrominoes (shown below) appear in the grid. The tetrominoes can be rotated or flipped, but they can't touch, even at a vertex. ANSWERS, PAGE 75

HOUD'S PATH

BY RODOLFO KURCHAN

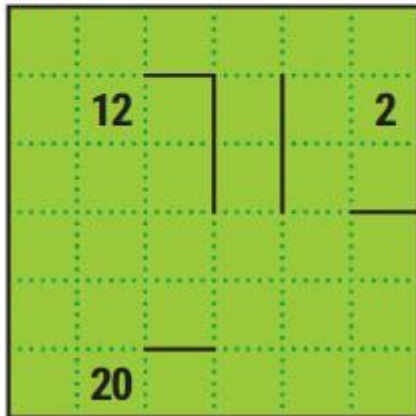

Trace the path of the hound, from the few numbers given. The route starts at the square numbered 1 and goes from one square to another neighboring one horizontally and vertically (but not diagonally), following the usual numbering 1, 2, 3, 4, etc. Each square must be visited once.
