DOMINO SUMS

Place the 10 dominoes 1-1, 1-2, 1-3, 1-4, 2-2, 2-3, 2-4, 3-3, 3-4, and 4-4 in the grid. Each domino must cover two orthogonally adjacent squares. Black squares remain empty.

The numbers outside the grid indicate the sum of the numbers in each row and column. Some numbers have already been placed.

Use each domino exactly once so that all row and column sums are correct.
